

LODAY TEMPA GYELTSHEN

 Thimphu, Bhutan
 +975 17549030
 loday.gara77@gmail.com

SUMMARY

A motivated and multidisciplinary IT student with strong experience in **web development (Next.js, react.js and Django REST Framework)**, **UI/UX design**, and **mobile application development**. I enjoy building impactful digital solutions and have hands-on exposure to **full-stack development**, **API integration**, **cloud technologies**, and **interactive educational applications**. Passionate about solving real-world problems, continuously learning, and exploring technologies across domains such as AR/VR, machine learning, and software engineering.

EDUCATION

Bachelor of Engineering in Information Technology
College of Science and Technology (CST), Bhutan

BHSEC (Class XII)
Ugyen Academy HSS - 2020

BCSE (Class X)
Tangmachu CS - 2017

TECHNICAL SKILLS AND EXPERIENCE

Frontend Development

- Experience in Next.js, React.js, TailwindCSS, Zustand, Shadcn UI, HTML, CSS, JavaScript, TypeScript

Backend & Databases

- Experience in Django REST Framework, PostgreSQL, MySQL, API Integration, Authentication & Authorization

Cloud & Dev Tools

- Render, Cloudinary, Git/GitHub, Axios Library

Mobile & App Development

- Flutter, Dart
- React Native

Design & Prototyping

- UI/UX Design, Figma, Graphic Design, Adobe illustrator, Adobe PS

Additional Skills

- Machine Learning & AI, Data Analysis, Project Management, AR/VR Basics,
 - **Basic Networking Concepts:** IP addressing, subnetting, routing basics, network configuration, LAN/WAN fundamentals, troubleshooting with tools like ping, traceroute, OSI and TCP/IP models.
 - Machine Learning & AI, Data Analysis, Project Management, AR/VR Basics,
-

EXPERIENCE

On-the-Job Training (Internship)

Dragon Coders Pvt. Ltd. — *Dec 2, 2024 to Feb 21, 2025* **Role:** Frontend Developer (Next.js)

Worked on **Service-dot-BT**, a platform connecting clients and freelancers. Developed the frontend in collaboration with a backend developer, gaining strong exposure to full-stack workflows and real-world development practices.

Key Contributions

- Built responsive and dynamic UI using **Next.js, TailwindCSS, Shadcn, Lucide Icons, Zustand**.
- Integrated authenticated REST APIs using **Axios** with token headers.
- Implemented role-based views for **Clients, Freelancers, and Admins**.
- Designed reusable components to improve development speed and maintainability.
- Collaborated closely with backend developer to ensure smooth integration.
- Improved user experience through clean navigation flows and optimized layouts.

Technologies Used

Next.js, TailwindCSS, Shadcn UI, Zustand, Axios, Django REST Framework, PostgreSQL, Cloudinary, Upstash Redis

Learning Outcomes

- Practical understanding of modern full-stack architecture.
 - Experience working in a professional development environment.
 - Hands-on experience with cloud storage, caching, and API-based workflows.
-

FINAL YEAR PROJECT (FYP)

Dzongkha Writing Practice Through Tracing Application

A mobile and web-based platform designed to help users learn and practice the Dzongkha alphabet through **touch-based tracing and guided visuals**.

My Contribution

- Designed and developed the **complete frontend UI** for both mobile and web versions.
- Created **UI/UX designs, graphics, characters, icons, and interactive layouts**.
- Ensured an intuitive learning experience with smooth tracing animations.
- Designed admin dashboard layouts for content management.

Features

- Tracing of Dzongkha alphabets with step-by-step guidance
- User progress tracking and gamified experience
- Admin panel for managing content and user feedback
- Cross-platform (Mobile + Web) support

Tech Stack

Figma, React Native, NextJS for web, Graphic Design Tools(Illustrator, Photo shop, Figma)

Projects and Hands on Experience

1. Service-dot-BT (Freelancer Marketplace Platform)

- Full-scale service platform connecting freelancers with clients.
- Built frontend with modern UI, smooth navigation, role-based dashboards.
- Integrated secure APIs with real backend.

Tech: Next.js, TailwindCSS, Zustand, Shadcn UI, Django REST, PostgreSQL

2. Machine Learning Prediction Models

- Diabetes prediction, Rain and flood prediction, etc.
- Trained multiple ML models and optimized accuracy.
Tech: Python, Pandas, Scikit-Learn, CNN, Regression model, etc

3. Image Recognition

- Developed a basic computer vision project that performs real-time image recognition using **OpenCV**.
- Image recognition using ResNet and CNN models
- Implemented image preprocessing techniques such as grayscale conversion, thresholding, contour detection, and edge detection.
- Applied feature extraction methods to identify objects in images and experimented with simple classification techniques.
- Gained hands-on understanding of how computer vision workflows operate from capturing frames to processing and detection. **Tech:** Python, OpenCV

4. VR Game Hall (College Project)

- Founding Team of **Zumtruel VR Game Hall**, at College of Science and Technology, a small VR gaming business initiated after winning the **RUB University Business Idea Competition in 2021**.
- Successfully operated a VR gaming setup for students and communities, offering immersive gaming experiences.
- Organized and managed pop-up VR game halls during multiple **college events**, attracting strong engagement and generating revenue.
- Gained hands-on experience in business operations, customer handling, equipment maintenance, and event-based deployment. **Tech & Tools:** Unity3D, Oculus/VR Headsets, C#, Player Interaction Framework

ACHIEVEMENTS & PARTICIPATION

- **Winner of RUB University Business Idea Pitching Competition (2021)**
— **Project: Zumtruel - for realistic perspective**
- Winner of **Logo Design** Competition — **CST Fablab** (2021)
- 3-day Data Science Short Course by Prof. Jennifer Widom (Stanford University)
- Programming Contest Participant (2023)
- Makathon Participant — **CST Fablab** (2023)
- GovTech Hackathon by JICA (2023)
- Participated in 2 days Ruby Rails training by Selise Bhutan Pvt Ltd.
- Active member of RUB ACM Student Chapter, Kuenphen Tshokpa club

STRENGTHS

- Creative Problem-Solving
- Team Collaboration & Communication
- Fast Learner & Adaptable
- Strong Attention to Detail
- Passion for Learning New Technologies

OTHER HOBBIES

- Reading and exploring **philosophies**
- Interest in **psychology**, human behavior, and cognitive science
- **Graphic design** and experimenting with visual aesthetics
- **fashion**
- Watching **documentaries** related to history, science, tech, and culture
- **Gaming**
